

## Digital signatures are coming soon

We've been working with DocuSign to introduce digital signatures as an alternative to hand-signed claims applications for our customers.

To ensure that all the third parties we work with are aware, we will be adding the above wording to all data gathering letters from 1st October 2020. As this is likely to be something you'd notice, we wanted to let you know in advance.

We will implement this improvement in the coming weeks and keep you updated as we get closer to its implementation date. You can find out more at [www.fscs.org.uk/digitalsignatures](http://www.fscs.org.uk/digitalsignatures)

Thanks,

The FSCS team
